Dear Angelica Baxter,

I am thrilled to apply for the Senior Manager position at Noome. With over 15 years of management experience, an MBA in Business Management, and a track record of driving measurable results, I am confident that I have the skills and expertise to lead a team of high-performing individuals and contribute to Noome's success.

During my career, I have successfully managed teams of 10-15 people and led projects that have resulted in significant improvements in organizational efficiency and productivity. As a Manager at Hogan Inc., I was responsible for leading a team of 15 individuals in implementing a new customer relationship management system that resulted in a 20% increase in customer retention rates and a 15% increase in new customer acquisition. Additionally, I led a cross-departmental project that streamlined the company's supply chain processes, resulting in a 25% reduction in inventory costs and a 30% decrease in order fulfillment times.

While I took a career break to start a family, I remained committed to my professional development by taking online courses and staying up to date with industry news. I am excited to bring my wealth of knowledge and experience back to the industry and contribute to the growth and success of Noome.

As a leader, I believe in fostering a culture of collaboration, accountability, and innovation. I have a proven track record of developing and coaching my team members to reach their full potential and achieve their goals. In my current role as a Consultant, I have led teams of 10-15 individuals in implementing business strategies that have resulted in a 30% increase in revenue and a 20% increase in customer satisfaction.

In addition to my leadership and management skills, I have a strong business acumen and a passion for driving business growth and success. I have a deep understanding of financial analysis, budgeting, and forecasting, and have successfully managed budgets of up to \$5 million.

At Noome, I am excited about the opportunity to work with a company that is committed to innovation, sustainability, and social responsibility. I am particularly impressed with your focus on improving healthcare outcomes through cutting-edge technology and innovative solutions.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further and learn more about how I can contribute to Noome's success.

Respectfully,

Luisa Pruitt
