and diverse culinary explorer.

SENIOR SOFTWARE ENGINEER SUMMARY

- Senior Software Engineer with 14+ years of experience, leading a team of 15 developers using React.js
- Improved project tracking and team efficiency by 30% by employing Agile methodologies at Innovexa
- Reduced time response by 20% at DataPulse by implementing robust back-end logic
- Achieved a 3.5 GPA in Master's, demonstrating strong academic skills and dedication to software engineering

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE ENGINEER

Innovexa / December 2017 - Present

- Led a team of 15 developers in designing and implementing robust and scalable systems using React.js.
- Collaborated with cross-functional teams to ensure seamless integration of software components.
- Utilized cloud services, particularly AWS, to optimize application architecture and enhance scalability.
- Employed Agile methodologies, including Jira, to improve project tracking and overall team efficiency.
- Conducted code reviews and provided mentorship to junior team members, emphasizing best practices and coding standards.

SOFTWARE ENGINEER

DataPulse / June 2012 - November 2017

- Played a key role in the design and development of a data-driven application, leveraging MongoDB.
- Implemented robust back-end logic and optimized database queries, resulting in a 20% reduction in response time.
- Collaborated with the front-end team to integrate dynamic and responsive user interfaces using React and JavaScript.
- Conducted thorough testing and verification of software components to ensure high-quality deliverables.

SOFTWARE DEVELOPER

CyberZenith / June 2010 - May 2012

- Contributed to the development of an expense tracker application, focusing on Integration with cloud storage for data backup and ensuring adherence to project timelines.
- Actively engaged in troubleshooting and problem-solving during various development phases.
- Gained proficiency in JavaScript and applied knowledge in optimizing code efficiency.
- Coordinated with team members to ensure effective communication and organization within the development team.
